

## Corporate User License Agreement – CCPS Metrics Reporting Web Application

Requesting a login ID for the CCPS Process Safety Metrics reporting web application implies your acceptance of this License Agreement on behalf of your employer.

If you do not accept the terms of this License Agreement, you should rescind your request for a login ID or, if a login ID has already been granted cancel your login ID.

The CCPS Process Safety Metrics and the CCPS Process Safety Metrics reporting web application, along with images, graphs, and text incorporated into the application are owned and copyrighted by the American Institute of Chemical Engineers (AIChE) on behalf of the Center for Chemical Process Safety (CCPS). AIChE retains title and ownership of all copies of the application and documentation. This license does not grant you or your company any rights to patents, copyrights, trade names, trademarks, secrets, or any other rights or licenses in respect of this product.

You certify that you are employed by the company on behalf of whom you have requested a login ID and that you are authorized to report process safety metrics on that company's behalf. You further certify that your company is in the business of manufacturing or handling chemicals or related products, that to the best of your knowledge, the metrics values you enter are correct, and that if you become aware that the reported metrics values are incorrect you will correct the values promptly.

You may not use any portion of the CCPS Process Safety Metrics reporting web application (including but not limited to the text and graphics) for commercial or non-commercial distribution except as fair use applies. You may not use the CCPS Process Safety Metrics reporting web application for fraudulent purposes, including but not limited to reporting data for a company other than your employer. You may be held legally responsible for any unauthorized use or copyright infringement that is caused or encouraged by your failure to abide by this agreement.

It is sincerely hoped that the use of the CCPS Process Safety Metrics reporting web application will lead to an even more impressive safety record for the entire industry; however, neither AIChE, CCPS, its consultants, the CCPS Technical Steering Committee and the Process Safety Metrics Subcommittee members, their employers, nor their employers' officers and directors warrant or represent, expressly or by implication, the correctness or accuracy of the content of the information presented in these Guidelines. As between (1) the AIChE, its consultants, the CCPS Technical Steering Committee, its consultants, and Subcommittee members, their employers, their employers' officers and directors and (2) the user of the CCPS Process Safety Metrics reporting web application, the user accepts any legal liability or responsibility whatsoever for the consequence of its use or misuse.
