

FOR SALE/RENT
24 / 7 EMERGENCY SERVICE
BOILERS
 20,000 - 400,000 #/Hr.
DIESEL & TURBINE GENERATORS
 50 - 25,000 KW
GEARS & TURBINES
 25 - 4000 HP
WE STOCK LARGE INVENTORIES OF:
 Air Pre-Heaters • Economizers • Deaerators
 Pumps • Motors • Fuel Oil Heating & Pump Sets
 Valves • Tubes • Controls • Compressors
 Pulverizers • Rental Boilers & Generators

Used Equipment Highlights

Large 316 Stainless Steel Reactors

S731819

- 10,000 gallon reactor, 316L S/ST, rated for 84 PSI/FV internal, jacketed for 25 PSI with dimpled jacket, complete with agitation.
- (2) 9,000 gallon reactor, 316 S/ST, rated for 225 PSI @ 250°F internal, jacketed for 100 PSI @ 250°, complete with agitation.

5,000 + Pieces of Machinery Available

-Autoclaves	-Extractors	-Mills
-Blowers	-Extruders	-Ovens
-Boilers	-Extruders	-Pelletizers
-Calciners	-Feeders	-Presses
-Centrifuges	-Fermenters	-Pumps
-Columns	-Filters	-Reactors
-Compactors	-Flakers	-Refrigeration
-Compressors	-Furnaces	-Screens
-Conveyors	-Generators	-Scrubbers
-Crushers	-Grinders	-Separators
-Crystallizers	-Heat Exchangers	-Silo
-Digesters	-Hoppers	-Tanks
-Dryers	-Kettles	-Wrappers
-Dumppers	-Kilns	
-Dust Collectors		
-Evaporators

Intelligen Suite

The Market-Leading Engineering Suite for Modeling, Evaluation, Scheduling, and Debottlenecking of Single & Multi-Product Facilities

SuperPro

Use SuperPro Designer to model, evaluate, and debottleneck batch and continuous processes

SchedulePro

Switch to SchedulePro to schedule, model, and debottleneck multi-product facilities

Tracking of equipment occupancy in multi-product facilities

Tracking demand for resources (e.g., labor, materials, utilities, etc.)

Inventory tracking for raw materials, intermediates, products, and wastes

SuperPro Designer is a comprehensive process simulator that facilitates modeling, cost analysis, debottlenecking, cycle time reduction, and environmental impact assessment of biochemical, specialty chemical, pharmaceutical (bulk & fine), food, consumer product, mineral processing, water purification, wastewater treatment, and related processes. Its development was initiated at the Massachusetts Institute of Technology (MIT). SuperPro is already in use at more than 400 companies and 500 universities around the world (including 18 of the top 20 pharmaceutical companies and 9 of the top 10 biopharmaceutical companies).

SchedulePro is a versatile finite capacity scheduling tool that generates feasible production schedules for multi-product facilities that do not violate constraints related to the limited availability of facilities, equipment, resources and work areas. It can be used in conjunction with SuperPro (by importing its recipes) or independently (by creating recipes directly in SchedulePro). Any industry that manufactures multiple products by sharing production lines and resources can benefit from the use of SchedulePro. Engineering companies use it as a modeling tool to size utilities for batch plants, identify equipment requirements, reduce cycle times, and debottleneck facilities.
