Mixing Solutions for Multiple Tank Configurations

Pulsair pneumatic mixers are the undisputed leader in Process Control Management. Our systems are designed to operate on minimal nitrogen, thus eliminating temperature fluctuation and specific gravity stratification in tanks. The Pulsair System operates multiple tanks exceeding one million gallons each or more, with one programmable controller, creating a consistent viscosity every time.

VMGSim™ Integrated Steady State and Dynamic Simulation.

Easily create process models of refining, chemical and oil/gas processing to troubleshoot, design or optimize your plant. Create steady state models, size and rate vessels, columns and heat exchangers. Add your control system to the model and click a button to run dynamically. Use the dynamic wizards to create and run dynamic depressuring and blowdown studies and model multistage compressors and antisurge control. Create custom unit operations and economic models embedded in your process model by dragging the Excel operation onto your PFD. Graphical User interface driven by embedded Visio. Completely Interactive, bidirectional simulation solver.

www.DynatrolUSA.com

Designed to monitor high, intermediate or low point-level detection on dry bulk solids as well as liquids or slurries, the Dynatrol® Level Detectors are available in corrosion-resistant coatings. The compact, rugged detectors are built in the USA and are solidly constructed for a long operating life. They have no moving parts, require no adjustments and are virtually wear-free - delivering a worry-free solution for your demanding service conditions.

Measure Color...Measure Quality

Color Measurement Systems

Stop using subjective visual methods of reporting color, the lack of color or yellowness. Start using objective instrumental methods and gain the benefits of sensitivity, precision and accuracy.

- Measure metrics such as Saybolt, APHA/ PtCo/Hazen, Gardner Scale, ASTM D1500, vellowness/whiteness and haze.
- Measure reflected or transmitted color for materials in the form of solids, sheets, films, pellets, granules, tablets, powders, paste
- Portable, Benchtop and On-line Systems

Traveling Gangway Fits Anv Car or Truck

Track mounted gangway can be moved back and forth along the elevated track and extended as necessary to provide safe and easy access or egress from the vehicle no matter what the spotting or configuration.

Free COMSOL Conference CD

COMSOL®, Inc. is now offering a free copy of the 2008 edition of the User Presentations CD! The CD is a compilation of over 250 user contributed slides, papers and models presented at the Boston and Grenoble Conferences. This unique presentation and proceedings CD covers a wide variety of applications including Chemical Engineering, Fluid Dynamics, Heat Transfer, Reaction Engineering and much more.
