

4th International Congress on Sustainability Science & Engineering

Balatonfüred, Hungary • May 26-29, 2015

The Conference

The 4th International Congress on Sustainability Science and Engineering (ICOSSE) will be held in Balatonfüred, Hungary from May 26-29, 2015. The purpose of the Congress is to exchange emerging ideas about ways and means of protecting the environment and its resources so that humans can achieve sustainable development and societal benefits through generations. The Congress will provide a common platform for researchers and practitioners of various physical and ecological sciences, engineering fields, economics, and social sciences.

Why Sponsor or Exhibit?

ICOSSE '15 is organized on these key themes in sustainability:

- ❖ Sustainable Water Management
- ❖ Sustainable Manufacturing
- ❖ Energy Sustainability
- ❖ Sustainability Issues in the Food-Energy-Water Nexus
- ❖ Sustainability Education and Societal Issues

ICOSSE 2015 will be the fourth annual. The success of conferences such as ICOSSE comes as a result of several factors: a strong organizing committee, knowledgeable speakers, and support of sponsoring and exhibiting organizations. Sponsor support allows conference organizers to keep registration rates at a level accessible to most industry practitioners while also allowing organizers to create an event that participants will want to return to year after year. Along with supporting the conference, sponsors and exhibitors gain valuable exposure to conference attendees through the accompanying advertising.
