

# AIChE Student Membership Benefits

## U.S. & Canada Undergraduates

Membership in AIChE is FREE for all undergraduate students in the U.S. & Canada who are taking any chemical engineering course, thanks to the generous ScaleUp sponsors.

### Build technical skills and knowledge:

- **SAChe Certificate** – Certificates of Safety Achievement that are valued by industry and presented by the Safety and Chemical Engineering Education Program (SAChe) & AIChE. Earn 4 PDHs per module (8 modules).
- **The AIChE eLibrary** – 24/7 online access to Perry's Handbook, McGraw-Hill's AccessEngineering and Knovel library collections, plus many other interactive references, handbooks, standards and databases.
- **The Pocket Handbook** – A handy reference of technical facts and formulas available to members only.
- **Online Publications and Blog** – *Chemical Engineering Progress*, AIChE's flagship publication; AIChExchange, monthly e-newsletter with special ScaleUp student editions; and AIChE SmartBrief, a weekly email news digest. Plus ChEnected, AIChE's online community created for and by young chemical engineers.
- **Content Archives** – AIChE students get free, unlimited access to all archived content including webinars and meeting sessions.
- **Free Division/Forum Membership** – Exclusively for student members: Free membership in up to two AIChE Divisions or Forums, technical groups that specialize in fields from environmental to nuclear engineering to sustainability.

### Develop your network and career:

- **Annual Student Conference** – Held in conjunction with the professional meeting, the Conference is four days of career information, social events, competitions, and fun with student engineers from over 100 schools, celebrating the Chemical Engineering profession.
- **Social Networking** – Meet fellow students and professionals on AIChE's Facebook and LinkedIn pages.
- **Scholarships & Awards** – Eligibility for over \$50,000 worth of scholarships and awards given annually to chemical engineering students who are members.
- **Competitions** – From individual competitions like the Student Design Competition to the popular Chem-E-Car® Competition that involves teams from universities around the world, there is a contest for everyone.
- **Career Management** – CareerEngineer, everything you need to get your internship and next job including resumé writing, interview prep, networking tutorials and access to industry research and career coaching.
- **IdeaConnection** – Earn money solving problems, participating in idea rallies, sourcing technologies, and doing research to benefit the Common Good. Companies have problems solved by select groups of great minds that work collaboratively in IdeaConnection's virtual ThinkSpace®.

\*Student membership in other countries is just \$7. Visit [www.aiche.org/internationalstudent](http://www.aiche.org/internationalstudent).
