

AIChE International Student Chapters

Thinking of starting a Student Chapter in your country?

First find out what interest there is among your peers to start a Chapter. As an operating Student Chapter, you must elect officers, hold regular meetings and organize Student Chapter activities. These can range from community service to social gatherings, industrial speakers to plant tours — any program that would be a benefit to your members.

If you feel there is sufficient support, you should then choose an Advisor. This is typically a chemical engineering faculty member who is a member of AIChE, supports your efforts and can help guide your Student Chapter as it builds momentum.

When you are ready to apply to AIChE to be formally recognized as a Student Chapter, please provide the following and submit to the Student Chapters Committee at studentchapters@aiche.org for review:

- 🌐 A copy of the Bylaws for your Student Chapter. A Bylaws template can be found at www.aiche.org/Students/Bylaws.aspx.
- 🌐 A letter of support from your Department Chair and Advisor
- 🌐 A summary of planned Student Chapter activities

🌐 A listing of Student Chapter members

🌐 A Student Chapter must have at least 12 members, all of whom must be AIChE Student Members

All student members of the International Student Chapter are encouraged to apply for individual AIChE international student membership in order to receive full AIChE international student membership benefits (see reverse for benefits).

If you have any further questions, please contact studentchapters@aiche.org and we'll be happy to assist you in any way we can.
