AIChE Sister Chapter Initiative

Chemical Engineering Professionalism Global Community

Overview

- Sister chapter initiative
 - Program description
 - Purpose
 - Role of domestic chapters
- Example sister chapter: La Universidad de los Andes
- How to get involved

The Student Mosaic

- What makes your chapter different?
 - Geographical diversity, the catalyst to unique thought
- Imagine the potential
 - Expansion of a professional network
 - Alternate points-of-view
 - Cultural exposure
- Benefits
 - Sharing of ideas (e.g. Bogotá, soccer)

What is a Sister Chapter?

- 1. Begins with a group of students at an international university interested in participating in AIChE
- 2. Current U.S. AIChE chapter acts as a mentor to help international students start and maintain their own chapter

Sister Chapter Responsibilities

- Leverage Internet technologies
- Cooperate, organize, and participate in meetings
- Stimulate discussions of solutions to critical issues
- Facilitate technical communities to address ChemE needs, such as safety and sustainability

Steps for Domestic Chapters

Step 1: Fill out the form handed out at start

Initiates sister chapter pairing process

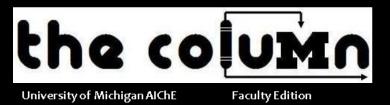

Step 2: Initiate relations & establish foundation

- Acquire sister chapter assignment/contact information
 - Will come from: Arjun Golpalratnam (AIChE staff)
- Set up video conference/meeting with executive board

Step 3: Maintain the relationship

- Send your chapter's newsletter every time it is published
- Schedule video conference once a month
 - Discuss recruitment of new members
 - Sponsorship by companies
 - Ideas for social events

Step 4: Establish a permanent mode of communication

- Social Media
 - Create Facebook page
 - Used to interact in a non-academic manner
 - 10 questions from each side
- Create a website (e.g. blog)
 - Upload documents, post questions, and share experiences

Step 5: Share corporate presentations

- Coordinate with sister chapter to stream live presentations
- Alternatively, record presentation and send it to chapter
- Ask sister chapter if they have questions for speakers ahead of time

Step 6: Initiate an AIChE Chemical Car Team at your sister chapter

- A premiere component of AIChE is the Student Chemical Car Competition.
- Another important way of becoming involved with AIChE
- The AIChE administration is still determining the logistics

Step 7: Maintain the community

- Keep Facebook page up-to-date
- Use website to post resources/articles both chapters can use
- Utilize the help of your alumni and professor to create a more professional environment, and explore opportunities to have individuals visit the sister chapter.

Current Sister Chapters

- □ University of Michigan & La Universidad de los Andes
- Kansas State University & East China University of Science and Technology
- □ Penn State University & Institute of Engineering and Fertilizer Research
- □ Texas A&M at Qatar & Kuwait University
- □ University of Utah & Pontificia Universidad Catolica de Chile
- University of Iowa & Technical University of Denmark
- University of California, Davis & University of Cairo
- Oregon State University & Universidad Central del Ecuador

What can you do? Get involved!

- Fill out interest sheet and return to us
 - Email with questions about the presentation:
 - For logistical questions about the pairings email Arjun Golpalratnam: (arjug@aiche.org)
- Resources for establishing a Sister chapter and these slides can be found on aiche.org under Students →
 Student Chapters

Thank You. Questions?

Christopher McMullen, cmcmull@umich.edu Nick Moses, mosesn@umich.edu
