

## The Conference

The **3<sup>rd</sup> International Congress on Sustainability Science and Engineering (ICOSSE)** will be held in the Kingsgate Marriot in Cincinnati, Ohio from August 11-15, 2013. The purpose of the Congress is to exchange emerging ideas about ways and means of protecting the environment and its resources so that humans can achieve sustainable development and societal benefits through generations. The Congress will provide a common platform for researchers and practitioners of various physical and ecological sciences, engineering fields, economics, and social sciences. The focus will be on managing natural resources and industrial sustainability from a systems perspective using scientific and engineering innovations.

### Why Sponsor?

ICOSSE 2013 will be the third annual. The success of conferences such as ICOSSE comes as a result of several factors: a strong organizing committee, knowledgeable speakers, and support of sponsoring organizations. Sponsor support allows conference organizers to keep registration rates at a level accessible to most industry practitioners while also allowing organizers to create an event that participants will want to return to year after year. Along with supporting the conference, sponsors gain valuable exposure to conference attendees through the accompanying advertising.
