

Welcoming Address

IPCC Expert Review Meeting

1 February 2010

Hotel Palomar, Washington DC

Haroon Kheshgi

*ExxonMobil Research and Engineering Company
and participant in the
Carbon Management Project, Expert Meeting Host*

Engineering Founders Societies' Carbon Management Project Welcome from the Expert Meeting Host

Goal: *To assure that engineering communities, educators, the general public, and public policy makers have the best-available information, analysis, sound engineering advice and recommendations regarding the mitigation of greenhouse gas emissions which contribute to climate change.*

Led by volunteers from the 5 Societies, together with roughly one million members.

Staffed by American Institute of Chemical Engineers

- Local Staff Hosting this Expert Meeting Led by Darlene Schuster, AIChE

Recognizing Support of this Expert Meeting

With Funding from:

- Chevron
- Electric Power Research Institute (EPRI)
- EURELECTRIC
- Exxon Mobil
- The Federation of Electric Power Companies/Japan (FEPC)
- General Electric (GE)
- Global Wind Energy Council (GWEC)
- International Petroleum Industry Environmental Conservation Association (IPIECA)

And In-kind Support from:

- Founders Societies' Carbon Management Project

Broad Interest from the Business Community in Contributing Expertise as Input for IPCC Reports

Interest from experts from a broad range of firms and associations with a history of participation in the IPCC and work on behalf of business

Ad Hoc Business Group (ABG) to facilitate input of expertise and perspective in the work of the IPCC :

- Nick Campbell, Arkema, France
- Jean-Yves Caneill, EDF, France
- Ann Condon, GE, USA
- Seth Dunn, GE, USA
- Brian Flannery, ExxonMobil, USA
- Norine Kennedy, USCIB, USA
- Haroon Kheshgi, ExxonMobil (ABG-Chair), USA
- Arthur Lee, Chevron, USA
- John Novak, EPRI, USA
- Stan Rosinski, EPRI, USA
- Masayuki Sasanouchi, Toyota, Japan
- Steve Sawyer, GWEC, Belgium
- John Scowcroft, EURELECTRIC, Belgium
- Yoshiharu Tachibana, TEPCO, Japan

Promoting continuation of the successful series of expert meetings engaging business in the preparation of the 4th Assessment Report: Tokyo, Paris, Cape Town

How to Facilitate Engagement of Business Expertise & Perspective in the Preparation of IPCC Assessments?
