Piping Design Software

Chemstations has released CC-SAFETY NET for piping networks and safety relief systems, including two phase venting. These systems can be studied in a steady state or dynamic mode. The calculations use the core components

of the CHEMCAD simulator: a full physical property database and set of thermodynamic options for calculating phase equilibrium; this sets CC-SAFETY NET apart and gives users distinct, bottom-line advantages.

Reference Disk

The Therminol Reference Disk is a multi-phase design guide, product selector and more. It has information about Therminol products and services. This CD-ROM continues the tradition of our Therminol Data Disk, the first and most trusted tools resource in the industry. On this new CD-ROM we have taken the data disk to the next level.

For your copy call our customer service line at 1-800-426-2463, or visit us on the Web at www.therminol.com

Chemical Engineering Modeling Tool

COMSOL, Inc.'s FEMLAB puts you on the front line! FEMLAB Chemical Engineering comprises a powerful, unique environment for modeling momentum, heat and mass transport coupled to chemical reactions. Now you can model fluid flow, gas flow and incompressible turbulent flow using a single tool. FEMLAB's key features include: simultaneous solving of an arbitrary number of coupled nonlinear PDEs

and state-of-the-art solvers for linear and nonlinear stationary and time-dependent problems in 1D, 2D, and 3D.

TSWEET®

Process simulation software makes plant operations, troubleshooting and optimization easier - Experience the difference of the TSWEET®-PROSIM® package and enjoy the power our software can offer your company.

• Amine Sweetening, Sulfur Recovery, Tail Gas Clean-up, Sour Water Strippers, Exchanger Rating/Sizing • Gas Processing, Refining, Petro-

chemical, Glycol Dehydration and Hydrate Inhibition. **Bryan Research & Engineering, Inc. Tel: 979-776-5220 www.bre.com**

Ultrasonic Level Transmitter

ABM series ultrasonic level transmitters feature all PVC construction and ranges up to 60 feet. One push-button easily sets up the unit in the tank or on the bench. Self-cleaning transducer is immune to condensa-

tion build-up. Built in temperature compensation and false echo rejection is standard. AC or DC supply; 4-20mA output.
