Mixing Systems Brochure

The brochure describes Pulsair's mixing systems that release sequential pulses of air or gas to mix tank contents. Systems are adaptable from a single 55-gallon drum to multiple 1 million gallon tanks and can be managed from a central control unit. Pulsair mixers are currently in use worldwide in the petroleum, lubricant, wastewater, food and wine industries.

"We Make Measuring Color Easy for You"

The UltraScan® PRO spectrophotometer measures reflected and transmitted color and meets CIE, ASTM and USP guidelines for accurate color measurement. Its 5nm optical resolution enables the precise measurement of samples having sharp cutoff characteristics. It quantifies color, APHA, achromaticity, whiteness and yellowness of a wide range of chemical products. UltraScan PRO is designed to be your reference instrument.
