

ELIMINATE VALVE CAVITATION

- Place one or more diffusers downstream of a valve to eliminate cavitation
- Eliminate noise
- Eliminate pipe vibration
- Reduce valve first costs
- Reduce valve maintenance

CALGON CARBON CORPORATION

Calgon Carbon Corporation's **Cyclesorb®**, **Cyclesorb® FP2**, and **Cyclesorb® HP** are compact, portable liquid treatment units containing all the elements of full scale carbon adsorption systems. They are ideal for low flow or short duration projects, contamination by leaking underground tanks, and storage tank or pipeline washing.

VMGSim™ Integrated Steady State and Dynamic Simulation.

Easily create process models of refining, chemical and oil/gas processing to troubleshoot, design or optimize your plant. Create steady state models, size and rate vessels, columns and heat exchangers. Add your control system to the model and click a button to run dynamically. Use the dynamic wizards to create and run dynamic depressuring and blowdown studies and model multistage compressors and antisurge control. Create custom unit operations and economic models embedded in your process model by dragging the Excel operation onto your PFD. Graphical User interface driven by embedded Visio. Completely Interactive, bidirectional simulation solver.

300 Multiphysics Presentations

COMSOL®, Inc. is now offering a free copy of the 2006 User Presentations CD! The CD is a compilation of over 300 user contributed slides, papers and models presented at multiphysics conferences worldwide. This unique presentation and proceedings CD covers a wide variety of applications including Chemical Engineering, Fluid Dynamics, Heat Transfer, Reaction Engineering and much more.

Request your complimentary copy at www.comsol.com; Tel: 781-273-3322

Designed to monitor high, intermediate or low point-level detection on dry bulk solids as well as liquids or slurries, the **Dynatrol®** Level Detectors are available in corrosion-resistant coatings. The compact, rugged detectors are built in the USA and are solidly constructed for a long operating life. They have no moving parts, require no adjustments and are virtually wear-free – delivering a worry-free solution for your demanding service conditions.

Request your copy of the latest **Dynatrol®** catalog - on CD!

Covers the complete **Dynatrol®** line of level switches & detectors, on-stream process analyzers, measurement & control instruments and a new line of accessories. Includes detailed drawings, wiring diagrams, and examples of proven uses.

DESIGN FLOW SOLUTIONS

Free downloadable demo

DFS Version 4

is the most comprehensive, cost effective engineering aid available for complete hydraulic analysis of complex piping; effective solutions to fluid flow problems; and fast, reliable reference information

ABZ
