Designed to monitor high, intermediate or low point-level detection on dry bulk solids as well as liquids or slurries, the **Dynatrol®** Level Detectors are available in corrosion-resistant coatings. The compact, rugged detectors are built in the USA and are solidly constructed for a long operating life. They have no moving parts, require no adjustments and are virtually wear-free – delivering a worry-free solution for your demanding service conditions.

Request your copy of the latest **Dynatrol®** catalog - on CD!

Covers the complete **Dynatrol®** line of level switches & detectors, on-stream process analyzers, measurement & control instruments and a new line of accessories. Includes detailed drawings, wiring diagrams, and examples of proven uses.

**TOTAL CORROSION MANAGEMENT CONTROL**

Intelligent Interface Unit

for Small to Medium Size Corrosion Management Systems

- Real time corrosion and erosion rates
- Monitor corrosion remotely, online
- Integrate corrosion management into existing DCS or SCADA system
- Reduce chemical inhibitor use
- Reduce risks from leaks and system failure

**VMGSim™**  
Integrated Steady State and Dynamic Simulation.

Easily create process models of refining, chemical and oil/gas processing to troubleshoot, design or optimize your plant. Create steady state models, size and rate vessels, columns and heat exchangers. Add your control system to the model and click a button to run dynamically. Use the dynamic wizards to create and run dynamic depressuring and blowdown studies and model multistage compressors and antisurge control. Create custom unit operations and economic models embedded in your process model by dragging the Excel operation onto your PFD. Graphical User interface driven by embedded Visio. Completely Interactive, bidirectional simulation solver.

**The Proceedings of the 2008 AIChE Annual Meeting** are now available for purchase. This CD-ROM contains more than 800 technical papers and abstracts. Organized in an easy-to-use and fully searchable format, the proceedings cover more than 770 technical sessions and 17 topical conferences. The cost for individual use is \$130 plus shipping. These proceedings, as well as other AIChE conference proceedings, can be purchased online at <http://shop.omnipress.com> or by calling Omnipress at 800-828-0305 or 608-246-2600 (international callers) or faxing 608-246-4237.

**Capital Project Managers! You Need This Software!**

**(1) Project Planning:** Calculates project schedule, concept through startup, based on input project cost estimate (conceptual through detailed) and project type.

**(2) FCI given ROI:** Calculates the fixed capital investment that satisfies input project economic criteria, *i.e.*, ROI, cost of money, yearly sales, etc., allows scoping to the proper budget instead of in the dark, also economically appraises process upgrades and equipment replacement.

**(3) Project Plans:** Project Plans for a small, medium, large, and very large project, in accordance with the PMBOK, the ANSI standard on project management. Hit the ground running! Never be at a loss for what to do again!

**(4) Engineering Scopes of Work (SOW):** Get better, more economical engineering through hard money bids: Preliminary Engineering SOW, Detailed Engineering SOW, Design / Build SOW.

**Cost:** \$99.00 each or \$325.00 for all four (PC users; shipping and taxes-if applicable-included).

**Mixing Solutions for Multiple Tank Configurations**

*Expect Engineered Excellence*

*"Loders Crohlaan's new Pulsair equipped state-of-the-art Palm Oil Refinery Rotterdam, Netherlands. 2006"*

**Pulsair** pneumatic mixers are the undisputed leader in Process Control Management. Our systems are designed to operate on minimal nitrogen, thus eliminating temperature fluctuation and specific gravity stratification in tanks. The **Pulsair** System operates multiple tanks exceeding one million gallons each or more, with one programmable controller, creating a consistent viscosity every time.
