Designed to monitor high, intermediate or low point-level detection on dry bulk solids as well as liquids or slurries, the **Dynatrol®** Level Detectors are available in corrosion-resistant coatings. The compact, rugged detectors are built in the USA and are solidly constructed for a long operating life. They have no moving parts, require no adjustments and are virtually wear-free – delivering a worry-free solution for your demanding service conditions.

Request your copy of the latest **Dynatrol®** catalog - on CD!

Covers the complete **Dynatrol®** line of level switches & detectors, on-stream process analyzers, measurement & control instruments and a new line of accessories. Includes detailed drawings, wiring diagrams, and examples of proven uses.

Cutting-Edge Capital Project Management & Cost Control

A one-day seminar introducing cutting-edge capital project management and cost control techniques, techniques endorsed by the Project Management Institute (PMI) and the American Association of Cost Engineers (AACE), adapted to our industry. No note taking necessary. A take-home CD will contain files and spreadsheets which will cover all discussed and do the following:

- (1) Project Scheduling:** Calculates project schedule, concept through startup, based on input project cost estimate (conceptual through detailed) and project type.
- (2) FCI given ROI:** Calculates the fixed capital investment that satisfies input project economic requirements.
- (3) Definition Rating & Earned Value:** Accurately predict final project cost at any point in the project. Identify overruns early enough to do something about them.
- (4) Project Plans:** for a small, medium, large, and very large project, accommodating any project, in accordance with the PMBOK, the ANSI standard on project management, written by the PMI, adapted to our industry.
- (5) Engineering Scopes of Work (SOW):** Get better, more economical engineering through hard money bids: Preliminary Engineering SOW, Detailed Engineering SOW, Design / Build SOW.

Cost: \$599 per person **Location:** Joliet, IL
Dates: 8/7/09, 9/18/09, 10/23/09, 11/20/09.

VMGSim™ Integrated Steady State and Dynamic Simulation.

Easily create process models of refining, chemical and oil/gas processing to troubleshoot, design or optimize your plant. Create steady state models, size and rate vessels, columns and heat exchangers. Add your control system to the model and click a button to run dynamically. Use the dynamic wizards to create and run dynamic depressuring and blowdown studies and model multistage compressors and antisurge control. Create custom unit operations and economic models embedded in your process model by dragging the Excel operation onto your PFD. Graphical User interface driven by embedded Visio. Completely Interactive, bidirectional simulation solver.

WORLD LEADER IN NUCLEAR AND CHEMICAL PROCESS SAFETY

FAI: Expanded Dust Testing Capabilities and New Pricing!

Fauske & Associates, LLC, World Leader in Nuclear & Chemical Process Safety, announces new laboratory capabilities with the expansion of state-of-the-art equipment and space yielding quicker test turnaround times. Best of all - we are now able to reduce our prices in 2009! FAI exceeds dust flammability and explosivity safety standards.

Call today for all your process safety needs!

Free COMSOL Conference CD

COMSOL®, Inc. is now offering a free copy of the 2009 Edition of the COMSOL Conference CD. It is packed with over 275 presentations from our recent conferences in Boston and Hannover. Included are presentations with slides, papers, videos and more. Applications featured include microfluidics, electrochemistry, transport phenomena, reaction engineering, and many more.

Request your complimentary copy of the CD at

Conference Proceedings

2009 AICHE Spring National Meeting & 5th Global Congress on Process Safety

April 26-30, 2009
Tampa Convention Center
Tampa, FL

The Proceedings of the 2009 AICHE Spring National Meeting are now available in multiple formats. You may access content as e-downloads of individual papers or groups of papers by going to www.aicheproceedings.org. The CD-ROM contains over 250 abstracts and more than 300 extended abstracts. You may also purchase print volumes of the Global Congress topicals, the Ethylene Conference, and the Distillation Conference. Past proceedings are also available. **You may also order by calling Omnipress at 1-800-828-0305 or 608-246-2600 (international callers).**
