RISE & SHINE

- The bright spot here? Our employees.

With complex challenges and shared values, REC Silicon's workforce is recognized worldwide for producing superior silicon gases and polysilicon products. These raw materials are used extensively in quality-of-life technologies from solar cells to semiconductors.

The sun never sets on our work ethic. We encourage the belief that individual efforts can result in something brighter. Every day.

You could say there's a special energy here.

creating what matters

Cabot Corporation is a global performance materials company, headquartered in Boston, Massachusetts. We are dedicated to creating products that matter to our customers and, ultimately, the consumers who buy their products. Whether it's carbon black for tires, fumed silica for adhesives, colorants for inkjet printers, or any of our wide-range of specialty chemical products, Cabot materials are a vital part of the world in which we live.

Cabot's energized environment includes a strong portfolio of businesses, robust technologies, backed by 39 manufacturing sites in 21 countries, and more than 4,000 employees worldwide. Cabot's culture is based on a flourishing entrepreneurial spirit. It's where innovation happens—from ordinary to extraordinary—every day.

Cabot Careers

We are currently recruiting for opportunities based at our Business and Technology Center located in Billerica, Massachusetts. If you're confident in your abilities and want to work in a diverse environment that truly values innovation and teamwork across the globe, and you have a desire to make a difference, consider pursuing a career with Cabot. Visit our website and apply today!

Cabot makes solid business and financial decisions for the long-term health and growth of the company and its employees and stakeholders. We provide competitive salaries and benefits, ongoing training and employee development, and career growth opportunities.
