## PROCESS SAFETY WRITER CENTER FOR CHEMICAL PROCESS SAFETY

The American Institute of Chemical Engineers (AIChE), founded in 1908, is a professional association of more than 40,000 chemical engineers worldwide. AIChE fosters and disseminates chemical engineering knowledge, supports the professional and personal growth of its members, and applies the expertise of its members to address societal needs and improve the quality of life. We are currently seeking a Process Safety Writer for our Center for Chemical Process Safety (CCPS) team. The position is based in our New York office, with some telecommuting possible. Responsibilities/Qualifications: Develop written products, including CCPS's Guideline and Concept series books as well as papers, technical papers, and other shorter pieces, all in support of CCPS's mission to eliminate process safety incidents; Participate in book committees, transferring the themes, methodologies, and rationale developed by the committee into finished books and associated tools that are well organized, readable, and useful; A BS degree is required, as well as a passion for process safety; A minimum of 10 years experience in a role with direct process safety experience; Prior book authorship experience is not required, but the successful candidate should have a significant portfolio of technical writing; Exceptional organizational and interpersonal skills are required; Strong process safety and engineering knowledge; 10% travel. **Interested candidates may email their resume and cover letter to [recruitment@aiiche.org](mailto:recruitment@aiiche.org). Please note the title of the position in the subject line of the email.** The American Institute of Chemical Engineers is an Equal Opportunity Employer.
