

THINK GREEN—THINK PULSAIR

Pulsair Chemical and Wastewater Mixing Systems efficiently mix aeration tanks, anoxic basins, sludge tanks, and chemical tanks using up to **75% Less Energy** than conventional mechanical mixers...and there are no immersed impellers, shafts, gears, seals or any other moving parts in the tank.

PULSAIR
The Fastest, Most Efficient Low Shear Mixing System Available Today!

For information on the Pulsair Automated Mixing System best for your application, Call 800-582-7797 Email sales@pulsair.com

Need A Technical Specialist For Your Adhesive Needs?

- Personal one-on-one assistance
- Custom formulations
- Latest technological developments
- Available in small to large volumes
