

Vice-chair:

Jonathan Hostetler - My name is Jonathan Hostetler and I am a research chemist at TempurSealy. I am also running for the position of Vice Chair for the East Tennessee local section of AIChE. I have been a member of the programs committee for the past year, helping to organize the nanoscience presentation from Virginia Tech Professors and assisting with the planning and scheduling of the other committee presentations. My involvement with the programs committee has only made me want to become more involved. This has led me to running for the Vice Chair position. I believe that the long term planning and attention to detail required for my job will help translate to running a successful local section.

Hanieh Niroomand - Hanieh Niroomand is currently a Senior Applications Scientist supporting Corporate Analytical Division. She earned her Ph.D. in Chemical Engineering from The University of Tennessee, Knoxville and has served the Global AIChE as an invited chair of the Sustainability Engineering Forum (SEF) sessions several times. She developed many leadership skills through volunteering both during her academic years and post academia, in her Eastman career. She has served as the coordinator for Engineers Week HS visits and currently serves the steering team for VSSB 2022 as the volunteer coordinator and looks forward to the opportunity to continue serving the chemical engineers and community in the East Tennessee region as a Vice-Chair for the local section. If elected Vice-Chair, Hanieh works to provide networking opportunities, support the professional and personal growth of members.

Secretary:

Emily Miller – Hey everyone, I am interested in being next year's AIChE East TN Secretary. I am looking forward to getting plugged into our local section and I anticipate serving as the secretary will help me do this while expanding my network as a young professional. Previously, I served as the Clemson AIChE chapter's secretary during my junior year (2019-2020) and industrial relations chair during my senior year (2020-2021). As secretary, my role centered around communicating event information and volunteer opportunities to students. Further, I spearheaded freshman recruitment events. As the industrial relations chair, I corresponded with our industry partners and planned information sessions for our department. I also partnered with the Western South Carolina AIChE chapter to plan joint events for students and local professionals. I am excited to serve our local section and meet all of you!

Treasurer:

Trey Sanfrey – Hello, I am Trey Sanfrey and am seeking the honor of serving AIChE East TN as Treasurer. I graduated from Purdue University in 2018 with a BS in ChE and a minor in Mathematics and currently work in Process Engineering in the Process Design and Optimization group. I am meticulous in managing my own finances and think these skills make me well suited for this duty. I truly look forward to efficiently and responsibly managing the chapter's budget and facilitating its mission.

Director:

Jennifer Mize –

HYBRID

November 5-8 | Boston, MA
November 13-14 | Virtual

Jennifer F. Mize, PE, CCPSC

BS Chemical Engineering, Auburn University (1996)

- Eastman Chemical Company, Kingsport, TN
 - Group leader - Process Safety Design, Global HSES (2016 – present)
- Relief design, Layer of Protection Analysis, Risk assessment, Process Hazard Analysis, Emergency planning
- Professional Engineer, State of Tennessee
- Director, Safety & Health Division (2019-2021)
- CCPS Certified Process Safety Professional
- CCPSC Managing Committee Member
- CCPS PSID Steering Committee Chair
- 2022 PSMM Conference Vice Chair Chair, 18th Global Congress on Process Safety
