Get Involved. Become a Member of UE&FA.

Upstream Engineering & Flow Assurance (UE&FA), a Forum of AIChE, is a global organization of leading engineers dedicated to advancing the applications of chemical engineering knowledge to solve flow assurance and upstream engineering problems. The UE&FA focus: from reservoir to topside processing & storage facilities.

UE&FA Forum Mission Statement

- Facilitate interaction between experts, professionals, and students interested in the area of upstream engineering and flow assurance.
- Goals include developing an understanding of the current upstream engineering challenges and contributing to the formulation of the necessary solutions based on fundamental principles of chemical engineering.

Member Benefits

- A global professional network—share expertise and problem-solving with colleagues from around the world
- Free quarterly webinars are planned from industry and academia on cutting-edge flow assurance and upstream engineering issues
- News that is relevant and what you need to know—members receive free UE&FA quarterly newsletters
- Access to collective knowledge from academic & industry leaders
- Discounts on leading UE&FA sponsored meetings & conferences
- Affordable professional development education via seminars, lectures, and workshops
- A voice in education

Become a member and join fellow colleagues who plan, design and operate some of the most challenging projects in real-world, high-tech upstream applications, and who share your interests in the principles, practice and technologies of chemical engineering.
