Pre-Meeting News Blast! October 2017

**Fall Meeting 2017,
Minneapolis, MN****Volunteers Needed for Undergrad Event***Belinda Akpa, Ph.D., AIChE MAC Chair*

Several of our Texas colleagues have had to withdraw from the Sunday event, as companies are limiting travel following the recent hurricane. We would be very grateful for the support of any individuals available to jump in as 'speed mentors' for the undergraduate event. No preparation is required and you do not need to be a member of an under-represented group. Just be willing to speak with a small group of students and answer their questions about what you do and how your career path has evolved. If you are available on Sunday from 10-11:30 and you would like to join us, you can register your interest in volunteering [here](https://engage.aiche.org/volunteeropportunities/volunteer-opportunity-details?VolunteerOpportunityKey=70d23001-4627-4175-a343-bc20f8510489&CommunityKey=2840dac4-19f6-434b-84c9-a5ef77b8e05f&returnurl=https://engage.aiche.org/volunteeropportunities/opportunities-list-public&ssopc=1). Note that you will need to log in to be able to volunteer. The Log In link will be at the top right of the screen. There is also a link on that page for you to nominate someone else if you know of another AIChE member who might enjoy participating in this event. We're expecting 100 eager undergraduates, including the 12 students from our Minority Serving Institutions initiative.

AIChE 2017 Annual Meeting Event

Diversity and Inclusion: Starting and Thriving in the Workplace

Tuesday, October 31, 2017, 11:00am-1:00pm CDT

Minneapolis Convention Center, 101G

Session Co-Chairs:

Adrienne Minerick, Michigan Technological University

MaryKathryn Lee, ExxonMobil Corporate Strategic Research

Dwayne Mays, Evonik

In 2016, the Education Division and the Minority Affairs Committee collaborated on a Diversity & Inclusion session involving academic leaders. This year, we are engaging industry in the conversation to share their perspectives. Presentations may include statistics, successes or failures in Diversity and Inclusion initiatives, or other similar topics.

Session Moderator:

Adrienne Minerick, Associate Dean for Research and Innovation

Assistant to the Provost for Faculty Development

Professor, Chemical Engineering, Michigan Technological University

Speakers:

Cynthia Murphy-Ortega, Manager, University Partnerships and Association Relations, Chevron

Mike McAtee, Senior Vice President Strategic Projects, BASF

Yuk Louie, Process Development Division, ExxonMobil

Jim Sweeney, School Head Professor, James and Shirley Kuse Chair in Chemical Engineering, Oregon State University
