

AICHE GUEST SPEAKER

DR. MARK HOLTZAPPLE, PROFESSOR OF CHEMICAL ENGINEERING, TEXAS A&M UNIVERSITY

Addressing climate change is one of the 14 grand engineering challenges of our time. This presentation describes the physics of global climate and its consequences, but also engineering solutions that can address the problem.

Dinner Provided

Venue and dinner will be provided at Papacita's at the loop on 6:30pm Thursday Nov 4th. Please RSVP using the google spreadsheet.

Lead Story

Dr. Holtzapple's research has been showcased as the lead story in AIChE's CEP magazine

East Texas AIChE

Our team at East Texas AIChE would like to invite all those interested to our kickoff event for this organization
