

September Section Meeting: Joint event with CSU Student Chapter at the Colorado Rockies Game

Let's kick off our 2015-2016 program year with an afternoon at the Rockies baseball game! This will be a joint event with the CSU AIChE student chapter on Sunday, September 27 at 2:10 pm. We will be hanging out in the new Rooftop area at Coors Field. Tickets must be purchased in advance through our PayPal meeting link. Directions can be found at this link: <http://mlb.mlb.com/col/ballpark/transportation/index.jsp>

Volunteers needed for Outreach and Education

I am looking for student and professional members that would like to be a part of two efforts;

- 1) natural gas industry outreach-education, and
- 2) higher education ethics.

There is an opportunity for RM members to provide insight and perspective related to the natural gas industry, truly the revolutionary energy sector in the US with global impact the last several years. Secondly, ethics in higher education impacts those that choose such a path but the topic is vastly unexplored or reported upon, despite having significant impacts on students' livelihood and check books. In both cases there is an opportunity for students or professionals to contribute to the advancement of these topics as chemical engineers.

For point 1 I am looking for authors, knowledge and images that contribute to education on the topic of natural gas production interested in publication. For point 2, I would like to connect with passionate chemical engineers looking to get involved within their career field at a level beyond simply going to work, in order to better understand and act upon social contracts that propel our profession into the future.

In both cases, involvement will be high profile opportunities for leaders in our region. If interested, please contact Cory Jensen at cory.jensen@alumni.colostate.edu
