Meeting Announcement

Principles of Rupture Disk Design, Selection and Operation

by

Jay Baker – BS&B Safety Systems

- Location: University Club, 4200 Hillsborough St, Raleigh NC 27606
When: Wednesday, October 16, 2013
Time: Social starts at 5:30 PM, Dinner at 6:30 PM, Lecture at 7:00 PM
Request: Bring your spouse or a guest.
Fee: Free for AIChE members and the first 5 student chapter members.
\$15.00 for non-members for buffet dinner
Limit: The event is limited to 50 persons, so RSVP early

Mr. Baker has been with BS&B for 9 years serving as the North American Sales manager and is a Mechanical Engineer from the University of Tulsa. This seminar will examine how rupture disk technology has progressed over the past 80 years since BS&B introduced the first commercially available rupture disk. It will focus on the many variables involved when selecting a rupture disk for an application and the applicable codes pertaining to rupture disks. Accessories for rupture disks and other BS&B product offerings will also be discussed. Product samples will be passed around the room and various rupture disks will be activated via pressurized test stand to demonstrate precision and opening characteristics.

Please RSVP by October 10th

RSVP to: Tim Wallace (timwallace@embarqmail.com) or call 919-552-6330
