Meeting Announcement

Double Containment Piping Systems

by

Diana Mollicone - IPEX

- Location: University Club, 4200 Hillsborough St, Raleigh NC 27606
When: Wednesday, May 6, 2015
Time: Social starts at 5:30 PM; Dinner at 6:30 PM; Lecture at 7:00 PM
Request: Bring your spouse or a guest.
Fee: Free for AIChE members and the first 5 student chapter members.
\$15.00 for non-members for buffet dinner
Limit: The event is limited to 50 persons, so RSVP early

This seminar will go over design guidelines and best practices for double containment piping systems. Topics covered include applications, material selection, system design, and leak detection methods. The objectives are; understanding the EPA regulations behind double containment piping, the purpose of double containment piping systems, the system design requirement differences for the carrier and containment piping, the different leak detection options and Applications (Traditional and non-traditional).

Diana Mollicone is an Applications Engineer at IPEX. Diana's primary focus, within IPEX, is providing technical support for the design and installation of plumbing and process piping systems. She received her Bachelor's Degree in Materials Engineering in 2010 from the University of Toronto as well as her Master's Degree in Mechanical Engineering from Ryerson University in 2012. Diana is a licensed professional Engineer in the province of Ontario. Prior to joining IPEX, Diana spent two and a half years in the consulting industry as a Piping Engineer for mineral processing plants. Since joining IPEX in 2013, she has been involved with thermoplastic piping system applications for various industries. Combined, Diana has over 4 years working with piping engineering and design.

Please RSVP by April 30th

RSVP to: Tim Wallace (easternncaiche@gmail.com) or call 919-623-1643
