Meeting Announcement

Sterilization – New Technology for Life Sciences and Healthcare Facilities

by

Matthew Wasik – Sterile Lab Services, LLC

Location: University Club, 4200 Hillsborough St, Raleigh NC 27606
When: Wednesday, September 25, 2019
Time: Social starts at 5:30 PM; Dinner at 6:30 PM; Lecture at 7:00 PM
Request: Bring your spouse or a guest.
Fee: \$15 for AIChE members. \$20.00 for non-members for buffet dinner
Limit: The event is limited to 50 persons, so RSVP early

This technical seminar will review key components for successful sterilization of clean rooms, classified spaces, and surgical rooms in pharmaceutical, biotech and hospital facilities using ionized hydrogen peroxide (IHP).

Matthew Wasik will discuss application scenarios associated with new capital projects, commissioning, remediation, and ongoing preventive best practices for sterilization of facility classified rooms and sterile filling suites. Topics include technical advantages of IHP, application methods, efficacy, and verification testing. This technical presentation will be useful for meeting attendees who are process engineers, packaging engineers, A&E project engineers, designers, and consultants.

Matthew Wasik is the founding Vice President of Business Development and Sales at Sterile Lab Services, LLC located in Raleigh, North Carolina. He is responsible for the marketing, technical sales and business development. He has over 25 years of experience in diagnostic imaging equipment sales and sterilization solutions in the Healthcare and Life Sciences industries. He has served in progressive technical sales and leadership roles at GE Healthcare, Cary Surgical Specialist, Samsung Healthcare Distribution, and MedStaff. Matthew obtained his BA in Business Administration for the University of Central Florida, and a Minor degree in International Marketing from Uppsala University in Sweden.

Please RSVP by September 18th
