Couples' Night will begin with cocktails and dinner in the John Hancock Center. Following dinner, everyone will move across the street to the Drury Lane Theatre at Water Tower Place. The theatre recommends parking in the Water Tower Place garage. The parking fee is \$2.75 for 5 hours.

Please Note:

RESERVATION DEADLINE IS JANUARY 23, 1981

We are limited to 100 persons (50 couples) for this event, so please act promptly. Mail your check payable to "Chicago Section, AIChE," along with a completed preprinted reservation form to:

Walt Wundrow
813 Washington Street, #2S
Evanston, Illinois 60202

We will have tables for 4, 6, or 8 persons at dinner. Those who would enjoy sitting together should send their reservations in a single envelope.

Questions about Couples' Night can be answered by calling Walt Wundrow at 856-7930 (days), 869-3480 (evenings) or John Forgac at 420-4960.

SOCIAL HOUR, 5:30 p.m.

Host: C-E Raymond, Combustion Engineering, Inc.

Our host for the social hour, as for the last several years on these occasions, will be C-E Raymond, a unit of Combustion Engineering, Inc. This company, which includes Raymond, Bartlett-Snow, and Ehram, has over 80 years of experience in the design and manufacture of process equipment.

Major product lines include Raymond pulverizing equipment, mechanical air separators, and flash drying equipment; Bartlett-Snow rotary dryers, coolers, kilns, calciners, and incinerators; and Ehram conveyors, idlers, and machinery for the wall board and grain industries.

Several important markets served by C-E Raymond are chemicals, nonmetallic minerals, fertilizer, cement, waste treatment, food processing, and bulk material handling. A fully equipped laboratory facility in Springfield, Ohio, serves the needs of their customers, where pulverizing, drying, and classification pilot plant test work can be conducted.

Once again, we wish to thank C-E Raymond for their continued generosity.

DINNER, 6:30 p.m.

THEATRE, 8:30 p.m.

Show: I'm Getting My Act Together and Taking It on the Road

Synopsis: A comedy about a night club singer who, celebrating her 39th birthday, wants to throw away her old act for a new life.

OBJECTIVES OF THE AMERICAN INSTITUTE OF CHEMICAL ENGINEERS

- To advance chemical engineering in theory and practice
- To maintain a high professional standard among its members
- To serve society, particularly where chemical engineering can contribute to the public interest.

This newsletter is published by the Chicago Section of the American Institute of Chemical Engineers. Copy for inclusion in the newsletter must be received not later than five weeks before the next meeting date.
