AIChE Local Section Vision Statement

AIChE Local Sections serve as the lifelong professional home for AIChE members in all sectors of chemical engineering. Each AIChE member is affiliated with one or more Local Sections, and for many, the Local Section is the most personal and accessible point of contact for professional support from AIChE. Local Sections, with the oversight and guidance of the Local Section Steering Committee, exist to provide support in the areas of career and leadership development, continuing education, networking, and supporting the local community. Every Local Section provides the best support possible by taking into account the local interests and needs of its members, In-turn, Local Sections depend on dedicated volunteers to support programming and pay dues. With this support, Local Sections can remain active and thriving and provide benefits to members that far outweigh the costs of members will participate in Local Sections. As Local Sections continue to grow, all Local Sections will strive to be selfsustaining, highly relevant to all AIChE Members, and advanced in the use of information technology (web and social media) to reach out to the community and members with more value.

AIChE Judging of North East Ohio Science & Engineering Fair (NEOSEF), virtual Zoom in 2022 due to COVID-19 Pandemic The Cleveland AIChEl Section annually judges the NEOSEF that is held at either Cleveland State University or John Carroll University. They will award 5 to 8 high school students with certificates and \$100 check awards for their subject matter.

Monthly Meeting Events with AIChE Cleveland Section (virtual Zoom meetings in 2021-2022) Each month during the school year the AIChE Cleveland Section holds a meeting on various technical, social, and ethical topics. Monthly events are posted on the AIChE Website and CTSC Email notification system for your general interest in attending.

AIChE Student Chapter, Department of Chemical and Biomedical Engineering, Washkewicz College of Engineering Cleveland State University (Annual AIChE certificates and \$200 check awards for Leadership & Academics).

AIChE Student Chapters: Department of Chemical and Biochemical Engineering, CASE School of Engineering, Case Western Reserve University (Annual AIChE certificates and \$200 check awards for Leadership & Academics).

AIChE Government Interaction with US Senate and Representatives as well as Ohio Governor on Climate Change. Letters promoting a transition from fossil fuels energy to Hydrogen fuel cell energy in stages to 2030 and 2050. This program is well planned and documented by the Fuel Cell & Hydrogen Energy Association (FCHEA) "Road Map to a U.S. Hydrogen Economy"
