From the Fellows Council

This edition of the Fellows Newsletter continues our third year of communicating information & features to the AIChE Fellows. Our goal remains to involve you in furthering the mission of AIChE! Click the links at the left to see most features on the following pages. Others include:

- Public Affairs & Information Committee (PAIC)
- Other Ways Fellows Can Give Back
- Fellows Council roster for 2018-19
- Long-time Fellows

Browse to aiche.org/community/fellows for more.

We look forward to greeting you at our Breakfasts, to considering your proposals for Fellows and Fellows Council activities, and to receiving your communications about issues important to the Fellowship.

Best regards, Syamal Poddar, PE, Chair; Dave Eckhardt, PE, Past Chair; Jo Rogers, Vice Chair; John O’Connell, Secretary

Annual Meeting 2018, Pittsburgh, PA Fellows Breakfast

Tuesday, October 30, 2018, 6:30–9:00 AM; Venue TBA

Agenda

- 6:30 Coffee & Fellowship
- 7:30 Greetings and Welcome
- 7:35 Remembrance of Departed Colleagues
- 7:40 Introduction & Presentation of New Fellow Pins & Plaques
- Reports: AIChE Leadership, FC Leadership, AIChE Foundation, Recent FC Initiatives & Actions
- A Special Activity for Attendees

See www.aiche.org/community/fellows/events for more.
Highlights from 2018 Fellows Breakfast in Orlando

### Remembering Our Departed Colleagues

Beginning at 6:30 AM on April 24, 68 Fellows attended the 2018 Fellows Breakfast in Orlando.

The program included:
- Departed Colleagues
- New Fellow Pins & Plaques
- AIChE Leadership Reports:
  - President: Chris Seymour
  - President-elect: Kim Ogden
  - Executive Director: June Wispelwey
  - Foundation Trustee: Eduardo Glandt
  - FC Chair Syamal Poddar
- Attendee Survey: “How can AIChE keep members engaged after they retire?”
Leadership Reports at 2018 Fellows Breakfast in Orlando

“Diversity and Inclusion: A Priority for 2018 & Beyond”

Save the Date!
December 11, 2018

Orlando Meeting Programming:
- Chem.E’s with Disabilities + Allies Reception and Forum
- Understanding Unconscious Bias in the Workplace Workshop
- Real Stories of Unconscious Bias in the Workplace Panel
- Disability Unity Community Convocation

Margaret Hutchinson Rousseau Pioneer Award for Lifetime Achievement
- Established in 2017 with generous support from Pfizer

Pittsburgh Meeting Programming:
- Women’s Initiatives Committee (WIC) 20th Anniversary Symposium
- Minority-Serving Institutions’ Leadership Development Initiative
- 3rd Annual LGBTQ + Allies Reception
- ChemE’s with Disabilities Reception & Disability Unity Community Convocation

2017 Accomplishments
- Negotiated & operationalized RAPID
- Expanded National meeting programing & exhibits
- Launched 2 pilot programs to increase membership
- Received $6.2 MM towards “Doing a World of Good”
- Grew Undergraduate Process Safety Learning Initiative (UPSLI)
- Extended global expansion; 5 overseas ChemECar® matches
- Expanded social media presence, AIChE Engage
- Added $3.6 MM to AIChE net assets

Primary 2018 Goals
- Develop strategic plan
- Achieve operating profit ($226K)
- Increase & retain professional members
- Continue to fund & develop UPSLI
- Start Diversity & Inclusion program
- Enhance and grow IT initiatives
- Achieve RAPID’s milestones & develop its sustainability plan
This year, AIChE began formulating its new strategic plan, as the current plan was originally developed in 2008 and lightly refreshed in 2013. The Institute, under the leadership of the Executive Director and the Strategic Planning Committee (comprised of 12 current and recent AIChE leaders), has followed a 3-phase process (see diagram below with more detail [here](#)). Data have come from current members, potential members, & other stakeholders via:

- Email survey, on ChEnected, AIChE’s social media channels, & SmartBrief
- AIChEngage Discussions;
- Virtual focus groups of committees, divisions, forums, & technical entities
- In-person meetings with: Center for Chemical Process Safety (CCPS), Board of Directors, Operating Councils, Foundation Corporate Council, Industry CEOs, Fellows
- Data collection at AIChE’s booth at the 2018 Spring Meeting & 14th Global Congress on Process Safety in Orlando

The goal was to find out trends impacting our profession & industry, what members want from their professional society, strengths & weaknesses of AIChE, & our role in advocacy.

Several critical needs are emerging:

- strengthen existing, and create new, technical communities including divisions
- aggressively deliver innovative products & services via advanced Information Technology
- enhance & develop lifelong learning for students, members, & other stakeholders.

Other themes under discussion include membership growth & outward advocacy for public policy & for the chemical engineering profession.

The data are now being analyzed for AIChE strengths, weaknesses, opportunities, & threats (SWOT), along with additional strategic analyses. A draft plan will be discussed by the AIChE Board of Directors in July and finalized in September. It will be presented to membership during the 2018 Annual Meeting in Pittsburgh, PA.

The Orlando Fellows Breakfast included a special activity of attendees to provide data for the Strategic Planning process. June Wispelwey posed the question, “How can AIChE keep members engaged after they retire?” Some of the suggestions were:

1. Personal asks for specific involvement
2. Advertise opportunities for networking, consulting, working, investment
3. Consider additional virtual connections with training
4. Make volunteering easier; publicize opportunities, give example retiree activities
5. Develop more focused communications for retirees
6. Publicize PAIC opportunities

Your Fellows Council wants to know your priorities about these and other ideas on how older members can remain engaged! Let us know at: fellowscouncil@aiche.org
AIChe’s Rapid Advancement in Process Intensification Deployment (RAPID) Institute

AIChe’s DOE-sponsored RAPID Institute continues to grow in membership, activities, and events. Current projects number 25; members now include 24 companies, 5 government & national labs, 29 universities, and 6 non-profits. Expect 75 members before 2019. More than $500k in dues collected.

The following events have occurred since the last Fellows Newsletter:

January 29: Thomas J. Walsh Joins Rapid as Interim CEO
February 6: Launch of Ten Webinars on Process Intensification for members
March 29–May 22: Project Submissions in Technical R&D, Education & Workforce
May 1: First Annual Report released; get it here
May 29: Orlando Spring Meeting Speed Dating Event in Leads to Matches!
June: Summer Intern 10-week Program of 14 graduate & undergraduate students.

Complete Information on RAPID’s technology focus areas, updates on Institute activity, information on the recently opened call for proposals, future events, and contacts can be found on the RAPID site: aiche.org/rapid.

Public Affairs & Information Committee (PAIC)

In order to better "...serve society, particularly where chemical engineering can contribute to the public interest..."

- Provide technical information to public & to policy makers
- Be appointed to government committees
- Expand AIChe members’ policy knowledge
- Create & disseminate white papers, blogs, CEP articles

Chair: Nada Assaf-Anid
Working groups:
- Advanced Manufacturing - Ka Ng
- Climate Change Adaptation & Resilience - Mary Ellen Ternes
- Communications - how to communicate with government - Phil Westmoreland

Browse to: aiche.org/community/committees/public-affairs-information-committee-paic
AIChE Fellows Newsletter Summer 2018

AIChE Foundation

Our $15 million campaign to shape the future of chemical engineering

As of late May, the “Doing a World of Good” Campaign has raised $10.3 MM from 5593 donors, including $1.1 MM from 50+ % of the Fellows. Already significant impacts have been made with these funds. Links are at aiche.org/giving/impact/stories. Of particular interest are the “Doing a World of Good” podcasts funded by Raj and Kamla Gupta. The 1st features Kelly Barb & Fellow John Cirucci of AIChE’s Global Social Initiatives Committee to promote social action & volunteerism (Click here to listen). The undergraduate process safety learning initiative (UPSLI) has been funded with faculty workshops, Student boot camps, and curricula materials.

Finally, a generous gift from Fellow Scott Love’s has established AIChE’s Process Engineering Community to provide service to what he considers to be a “silent majority” of process chemical engineers who play vital roles in chemical industries.

We are the philanthropic arm of AIChE, where chemical engineers give back.

The World of Chemical Engineering: New programs expanding AIChE's global reach
Best In Class: Enhancing undergraduate curricula & promoting lifelong learning
Opening Doors For Young Professionals: Engaging young chemical engineers into the profession & AIChE leadership
Expertise Anytime, Anywhere: Innovative products & services via new technologies
Grand Challenges & Opportunities: Public & government education initiatives on critical issues, focusing on water & energy

Other Ways Fellows Can Give Back

Fellows are urged to contribute their time and expertise to some of the many activities and needs of AIChE members, students, and entities. While there was previously a special web portal for Fellows volunteering, there is now a more complete site to be matched to appropriate individual opportunities. Volunteer Central is where you can now submit your interests and availability, and be connected to those who can take best advantage of your interests and give a satisfying experience. (aiche.org/community/sites/fellows/fellows-volunteer-service).
Fellows Web Site

We encourage you to browse to aiche.org/community/sites/fellows to keep abreast of FC activities and find useful information. In particular, all Fellows can retrieve election criteria and nomination packets. The AIChE 2017 Annual Report can also be downloaded from the Fellows Home Page.

The web site has many sections that can be edited by the website managers, Jo Rogers and John O’Connell, as pictured on the lower left of the home page. Suggestions for improved navigation, corrections, and enhancements are welcome!

There Are Many Long-Time Fellows & Recent Ones Too!

Currently, there are 896 AIChe Fellows. AIChe records show that there are 29 Fellows with active memberships who were elected more than 40 years ago. Johnny Mcketta is the longest; he became a Fellow in 1971, shortly after the Fellows Grade was initiated (see the History of the Fellows at aiche.org/fellows-history). Further, there are 133 active Fellows who were elected between 30 and 39 years ago & 140 elected between 20 and 29 years ago.

During 2017, 37 members became Fellows. The AIChe Constitution allows for 5% of the membership being Fellows; we are at less than 3%. Let the nominations flow!

We are privileged to have in our Fellowship, and proud to know, all Fellows for their achievements and stature, especially those who have been leaders of our profession and Community for so many years.
Fellows Council Activities

The AIChE Fellows Council oversees the organized activities of the Fellows and meets at least four times per year to discuss Fellow activities and policies. Two meetings are face-to-face at the fall (Annual) and spring (National) AIChE meetings, and two or more are virtual, usually by teleconference. Link to the Bylaws document from: https://www.aiche.org/community/sites/fellows/leadership. See next page for summaries of recent meetings. Fellows interested in being considered for FC service should contact us.

Fellows Cosponsoring AIChE Programming (J. Hill)

Former FC Chair, Jim Hill, is active in many sectors of AIChE. Through his involvements in the Executive Board of the Programming Committee (EBPC), and the Council for Chemical Research (CCR), the Fellows will cosponsor with CCR sessions in Pittsburgh on Energy (with an invitation to the Secretary of Energy) and on Marcellus Shale (J. Sirola is to speak). EBPC task forces to improve Annual Meeting programs, enhancing Topical Conferences, improving graduate student experiences including poster sessions to meet industrial recruiters.

Fellows Support of Chemical Engineering Departments (D. Eckhardt)

Past FC Chair, Dave Eckhardt, is heavily involved with providing assistance to US chemical engineering departments. He is stimulating and participating in regional Department Chair gatherings in the Northeast, Rocky Mountain, and Southeast regions. His major gift helps sponsor the Northeast Regional Student Conference. Dave is developing sessions & presentations on Senior Capstone Process Design courses. He is participating on Department Advisory Committees. He hopes that these actions will encourage other Fellows to engage with chemical engineering education.

Professional Registration and FE and PE Examinations (J. Cramer)

FC member Joe Cramer, along with Fellow Bill Parrish, have organized several sessions at recent and forthcoming AIChE Meetings on the paths and content toward professional registration, as related to chemical engineering. These include having the President of NCEES speak, a series on professional ethics organized by Fellow Deb Grubbe, the FE exam as a curricular assessment tool, and sessions at the Annual Student Conference on the value and process for professional licensing.

Fellow Nomination and Selection of International Members (J. Rogers)

FC member and Vice Chair, Jo Rogers, a long-time member of the AIChE Admissions Committee, along with FC member Joe Cramer and Fellow Benny Freeman, is leading an effort to identify barriers to Fellow nominations from outside North America. We want to ensure that the process does not inhibit the selection of those qualified and interested in becoming an AIChE Fellow. If you know of any potential nominees for Fellow who reside outside of North America, please contact us.
Summary of Fellows Council Telecom
January 19, 2018. 5:00 - 6:00 PM EST

- FC Meeting plans for 2018 – Four to five meetings total
- Fellows Web Site – J. Rogers to become a Webmaster
- FC Chair to send personal welcome notes to new Fellows
- Support of Regional University Department Chairs expanding
- Special letter to be drafted & sent to Emeritus members & Fellows to encourage continued participation
- Fellow Nominations and Admissions – Barriers to selecting international Fellows
- Professional Registration – Build member and student awareness and engagement
- Foundation – Fellow contributions to “Doing a World of Good” exceed $1MM
- Quality at AIChE Meetings – Support EBPC and other entities to improve sessions
- Membership of Fellows Council – No new FC members for 2018
- Next meeting face-to-face in Orlando, April 24, 2018

From minutes of the meeting prepared by John O’Connell, Secretary

Summary of Fellows Council Meeting in Orlando
April 24, 2017 9:30 – 11:00 PM EDT

- E. Miller, A. Khogeer attend as guests
- Fellows Breakfast good. Proposal for AIChE President help present to new Fellows.
- Strategic Programming Initiatives (See page 8.)
- Admissions Committee to test issues limiting nominations, especially internationals
- “Doing a World of Good”>$10 MM. (See page 6.) FC & Fellow participation goals?
- D. Eckhardt attending & supporting University Department Chair Regional Meetings
- Consider enhancements of Web site with Q & A, individual activities
- Telecoms in June & September followed by face-to-face in Pittsburgh, October 30

From minutes of the meeting prepared by John O’Connell, Secretary
