

**JOIN THE ADVANCED MANUFACTURING &  
PROCESSING SOCIETY**

The **Advanced Manufacturing and Processing Society (AMPs)** is the one-stop shop for information and resources on the manufacturing and processing industries at large. AMPs seeks to provide information, education, and technology that is on the forefront of science and engineering that promotes global manufacturing supply chain costs and energy use reductions. Through AMPs, you can find curated content from across the 14 Manufacturing Institutes of Manufacturing USA®, news of upcoming events and important dates, educational articles and webinars, and much more.

---

## GOALS

---

**Connecting the Manufacturing Community** with networking opportunities in setting the future investment in the global manufacturing supply chain.

**Cultivating Knowledge** by providing services in the form of publication, education services and technical programming.

**Catalyzing the Future** with a platform to raise interest, understanding, and recognition of manufacturing roles.

---

## MEMBER BENEFITS

---

- Gain an international professional network
- Retain access to member-only curated technical content
- Receive discounts on leading manufacturing conferences, such as **Advanced Manufacturing and Processing Conference (AMPc)**
- Obtain a subscription to the *Journal of Advanced Manufacturing & Processing* (JAMP)
- Acquire first-hand information from academic and industry experts
- Access webinars and events featuring cutting edge topics covered by current experts
- Find discounts on select RAPID Manufacturing Institute® products
- Connect on the AMPs LinkedIn page

# EXCLUSIVE TECHNICAL CONTENT

Available Only to AMPs Members

## Curated CEP Article Bundles

Advanced Manufacturing and Processing Society Members can find specially curated Chemical Engineering Progress (CEP) Article Collections. CEP Articles provide invaluable insight into the past and current trends affecting Advanced Manufacturing and Processing Society today and in the future.

## Conference Proceedings

The Conference Proceedings encompass AIChE's online database on Advanced Manufacturing and Processing Society Proceedings from past AIChE Meetings. As an AMPs member you can access the AMPs proceedings from any available year.

## Webinars

As a member of the Advanced Manufacturing and Processing Society, you receive access to select AIChE Webinars chosen for the AMPs Professional on topics such as Pharmaceutical Manufacturing, Petroleum & Chemical Manufacturing, Manufacturing Challenges & Future Opportunities, and Data as a Digital Asset. Don't miss out on these valuable resources!
