

AIChE 35 Under 35 Award Nomination Form

AIChE will be highlighting 35 outstanding AIChE members under the age of 35 who have made significant contributions to the field of Chemical Engineering and AIChE. Nominees can have made contributions through any of the following 7 broad categories:

- **BioEngineering** - Emphasis on the application of engineering to biologically based processes and biomedical and health-care-related applications, including but not limited to cellular and materials systems design, metabolic and cell engineering, food engineering and technology, pharmaceutical drugs and biologics, drug delivery, biomaterials, tissue engineering, and regenerative medicine.
- **Chemical & Materials** - Emphasis on the design, generation, and characterization of chemical products and functional materials systems, including but not limited to inorganic and organic chemical products, composite materials, polymeric systems, and nanomaterials.
- **Education** - Emphasis on accomplishments as an educator, including but not limited to creation and effective implementation of educational methods, materials, and technologies.
- **Energy & Environmental** - Emphasis on energy production and/or consumption with emphasis on sustainable and efficient approaches, including but not limited to heat or other process integration, water resource management, mitigating emissions, advancing alternative energy sources, and shaping resilient processes.
- **Innovation & Entrepreneurship** - Emphasis on innovative creations within engineering science, technology, or the economy, including but not limited to start-up companies.
- **Leadership** - Emphasis on organizational or societal leadership, including but not limited to effective entity or project leadership, community service, or public thought-leadership.
- **Safety** - Emphasis on improving process and/or personal safety for manufacturing, including but not limited to enhancing safety-instrumented-system (SIS) engineering and design, advancing certified functional safety expertise (CFSE and CFSP), and improving overall awareness that results in reduced safety incidents within the manufacturing industries.

All questions below are required.

Nominator Information

Your Name *

Award Statements

Answer each of the following questions about the person you are nominating for this award.

Describe your nominee's involvement within AIChE. *

Describe your nominee's career path thus far. How has their career shown excellence in the category for which they are being nominated? *

Describe your nominee's professional activities outside of work as they relate to the award category they are being nominated for. *

Describe where you see this nominee's career in the future. How do you see the nominee's career progressing and transforming in the field of the award category? *

Overall, why do you believe this person should be nominated for this award? *

Letter of Recommendation

Powered by Formstack Create your own form >

In addition to the information provided above, please attach a letter of recommendation for this nominee by someone other than yourself, the nominator. This letter can come from a supervisor, a mentor, a peer, an AIChE leader, etc. Please note that either the nominator or the letter of recommendation must come from outside the nominee's organization. *
