## TIPS FOR A SUCCESSFUL MEETING

-  Say **hello** to everyone.  
You might make someone's day.
-  **Introduce** yourself to people you don't know.  
They may be your next good friends.
-  Stop and **smile**.  
You will brighten the room considerably.
-  Be **understanding**.  
Everybody makes mistakes.
-  **Help** those with less experience.  
We were all novices at some point.
-  **Respect** others.  
We all have something valuable to contribute.
-  **Value** staff and volunteers.  
They are here for you.
-  Be **kind**.  
You will never like everybody, but you can be cordial to all.
-  **Enjoy** the meeting!  
You can have fun while sharing, learning and networking.

# WELCOME ADDRESS

Dear Participants,

On behalf of the Center for Chemical Process Safety® (CCPS®) and the European Process Safety Center (EPSC), we are pleased to welcome you to the 2019 European Conference on Process Safety and Big Data. This is the fourth edition of the conference in Europe, featuring Augmenting Process Safety Performance through Big Data, Digitalization and Robotics, jointly organized by CCPS and EPSC.

The first three editions of this conference series were held in 2016, 2017 and 2018, respectively, and we received excellent feedback from all attendees and stakeholders. Those who attended these events have felt that Big Data, in relation to Process Safety, is an emerging area and we must stay abreast with this important evolving subject, as it can deliver exceptional value to our key stakeholders. This event will serve as a common platform that brings together our key stakeholders - industry, academia, governmental regulatory agencies, and labor organizations, to lead the way in improving industrial process safety and achieving process safety excellence.

We would like to acknowledge our technical planning committee and presenters, who worked tirelessly with presenters to put together the best presentations that you will enjoy at this conference at the DECHEMA-House in Frankfurt am Main.

It is with the generous support of our sponsors and exhibitors that conferences like this are made possible. We are thankful for their dedication and contribution to the global process safety community.

Finally, we would also like to thank all of you for attending this conference. It is an excellent opportunity to exchange between peers and learn from experts about process safety and big data. We hope as you participate, your time will be well spent, enriching, and inspiring.

We sincerely hope that you will enjoy the conference!

# CODE OF CONDUCT

## **AIChE® Volunteer and Meeting Attendee Conduct Guidelines**

AIChE's volunteers are the core of the Institute and make all of its programs, conferences and educational efforts possible. These offerings provide excellent opportunities for AIChE members and meeting attendees to gain greater technical expertise, grow their networks, and enhance their careers. AIChE events provide engineers, scientists, and students a platform to present, discuss, publish and exhibit their discoveries and technical advances.

At all times, volunteers and meeting attendees should act in accordance with AIChE's Code of Ethics, upholding and advancing the integrity, honor and dignity of the chemical engineering profession. AIChE's Board of Directors has developed these guidelines to foster a positive environment of trust, respect, open communications, and ethical behavior. These guidelines apply to meetings, conferences, workshops, courses and other events organized by AIChE or any of its entities and also to volunteers who conduct other business and affairs on behalf of AIChE.

Specifically:

1. Volunteers and meeting attendees should understand and support AIChE's Code of Ethics.
2. Volunteers and meeting attendees should contribute to a collegial, inclusive, positive and respectful environment for fellow volunteers and attendees, and other stakeholders, including AIChE staff.
3. Volunteers and meeting attendees should avoid making inappropriate statements or taking inappropriate action based on race, gender, age, religion, ethnicity, nationality, sexual orientation, gender expression, gender identity, marital status, political affiliation, presence of disabilities, or educational background. We should show consistent respect for colleagues, regardless of discipline, employment status, and organizations for which they work, whether industry, academia, or government.
4. Disruptive, harassing or other inappropriate statements or behavior toward other volunteers, members, and other stakeholders, including AIChE staff, is unacceptable.
5. Volunteers and meeting attendees should obey all applicable laws and regulations of the relevant governmental authorities while volunteering or attending meetings. Volunteers and meeting attendees taking part in any AIChE event, including the Chem-E-Car Competition®, should also comply with all applicable safety guidelines.
