3rd Emerging Meat Alternatives Conference (EMAC)
Sponsorship Opportunities

October 6-7, 2021 ● Virtual ● Meeting Website

The Emerging Meat Alternatives Conference (EMAC) series focuses on technical aspects of creating plant-based and cultured meats. Emerging meat alternatives are a prime example where biochemical and high-tech chemical engineering problems need to be solved in a multidisciplinary environment with biologists, chemical engineers and bioprocess engineers. The conference will focus on the technologies (and challenges) shared by plant-based and cultured meat alternatives to achieve the goal of creating protein-rich food that can replace conventional meat. Technology areas covered will be development of plant proteins as ingredients (novel proteins/extraction/processing/off-flavors), texturizing, bioprocessing, cell and tissue culture and biomaterials. Food safety, quality control and regulatory issues will also be discussed.

Why Sponsor?

Sponsoring and/or exhibiting at this conference can help you to accomplish three main goals: brand awareness, thought leadership and lead generation. Establish your company as a leader in developing plant-based and cultured meat technology. Connect with attendees and share your technical expertise during a sponsored talk or networking event. Generate leads to follow up with after the meeting to share more information about how your technology can help to research and applications of meat alternatives.

All levels of sponsorship are customizable to meet your budget and goals for the meeting. Please do not hesitate to ask if you are interested in alternate means of recognition. All sponsorships include the core benefits outlined below. The standard packages are described in the table on the following pages.
