

# ACEME 2020

## Accelerated Carbonation for Environmental and Material Engineering

July 5-8, 2020

Tallinn University of Technology  
Tallinn, Estonia

Participate in the 7th edition of the ACEME Conferences, an event that promotes research and development activities on accelerated carbonation at an international level, favoring the share of knowledge and discussing future development and implementation in the field.

### SESSION TOPICS

- Principles of accelerated carbonation
- CO<sub>2</sub> capture and storage by mineral carbonation
- Accelerated carbonation of alkaline materials including industrial wastes, lime, cement and concrete
- CO<sub>2</sub> utilization by mineral carbonation
- Pilot- and full-scale applications

Submit an abstract, register  
and learn more about ACEME 2020

### CONFERENCE CHAIRS

**Andres Trikkel**, Tallinn University of  
Technology, Estonia

**Mai Uibu**, Tallinn University of  
Technology, Estonia

**Ron Zevenhoven**, Åbo Akademi  
University, Finland

### SESSION CHAIRS

**Alessandra Poletti**, University of  
Rome "La Sapienza", Italy

**Greeshma Gadikota**, Cornell  
University, USA

**Colin Hills**, University of Greenwich,  
United Kingdom
