October 4-6, 2018 | The Mission Bay Conference Center | San Francisco, CA

## CALL FOR ABSTRACTS NOW OPEN

The Society for Biological Engineering invites you to participate in the **2nd International Conference on Epigenetics and Bioengineering**, October 4-6, 2018 in San Francisco, CA.

EpiBio 2018 is a forum for engineers and scientists who are applying the tools and techniques of bioengineering to the area of epigenetics. This conference explores how to advance interfaces with the epigenome, providing a platform to communicate, share technical knowledge, nucleate collaborations and partnerships, and hear a diverse set of perspectives related to needs, opportunities and priorities at the intersection of bioengineering and epigenetics. Academic, clinical, and industrial researchers from several disciplines are invited to share their recent discoveries and developments, and the overarching goal of the conference is to shape the future of this emerging field.
