

Louisiana Steam Equipment Applied Technology Center

Open House

1735 Tchoupitoulas St., New Orleans, LA 70130
www.steamsolutions.com / 504-523-3627 (Nancy)

- Monday: 9 AM – 5 PM
- Tuesday: 9 AM – 5 PM
- Wednesday: 9 AM – 1 PM

Sign up at **Booth # 132** for free continuous shuttle transportation to our facility which is less than a mile away.

New Orleans Facility

Our Applied Technology Centers are an extension of our commitment to providing value added quality to the goods and services we offer our valued customers.

Through the use of computer modeling programs and a fully functional glass piping system using live steam, our facilities are among the most advanced in the United States.

Houston Facility

The Applied Technology Centers feature operational characteristics and theory behind basic steam trapping practice. Steam, condensate, and non-condensable gas behavior in piping systems components are shown in glass.

Welcome to New Orleans!

New Orleans is one of the world's most fascinating cities. Steeped in a history of influences from Europe, the Caribbean, Africa and beyond, it's home to a truly unique melting pot of culture, food and music.

What an opportunity to combine a visit to New Orleans with your technical seminar knowledge. Our facility is located just two miles from the French Quarter with its world famous restaurants, antique shops and the magnificent Aquarium of the Americas. A short four miles in the opposite direction is the Audubon Zoo with exotic animals roaming in their natural habitat. The Garden District with its stately antebellum mansions is also our neighbor.
