

# Cell Therapies + Immunotherapy Conference

**October 20-22, 2019**  
Courtyard San Francisco Downtown  
San Francisco, CA

Participate in the **Cell Therapies and Immunotherapy Conference** – an event that brings together experts from industry, clinical research and academia worldwide to address challenges and discoveries in the cell therapy and immunotherapy fields that will ultimately change the future of healthcare.

#### Session topics include:

- Update from the Frontline: CARs in the Clinic
- Mechanisms of Relapse and Strategies to Overcome
- Beyond Conventional CARs
- Gene Editing in Cell Therapy
- Moving Beyond Autologous T cells
- Solid tumors: Increasing Specificity and Overcoming TME
- Bigger, Stronger, Faster: Synthetic Biology Approaches to Develop more Potent Therapies
- Cell Therapy Applications Beyond Oncology
