

Enterprise + Infrastructure Resilience Conference

August 12-13, 2019

Kingsgate Hotel & Conference Center, Cincinnati, OH

Join industry, government and academia at the Enterprise & Infrastructure Resilience Conference to explore multifaceted resilience strategies for the modern enterprise that address dependence on external systems, such as the environment, stakeholders, shareholders, and society.

TOPICS INCLUDE

- Resilient Design and Operations of Chemical Process Systems
- Advanced Control Systems for Risk Management and Resilient Processes
- Resilient Power, Water, Feedstock, and Product Supply Systems
- Resilience's Lessons from and for the chemical industry, communities, sustainability & environment

Submit an abstract, register and learn more about Enterprise & Infrastructure Resilience
