

October 4-6, 2018 | The Mission Bay Conference Center | San Francisco, CA

CALL FOR ABSTRACTS NOW OPEN

The **2nd Epigenetics and Bioengineering Conference (EpiBio 2018)** brings together academic, clinical, and industrial researchers to explore products and processes related to the epigenome. Attendees will share technical knowledge, build collaborations, and hear diverse perspectives about the opportunities found at the intersection of bioengineering and epigenetics.

We are excited to announce our featured speakers:

Keynote Speaker

Ting Wu
Harvard University

Ting Wu is an American molecular biologist. Wu has made significant contributions in the area of science education in genetics, across many age groups, through work with the Smithsonian Institution and the National Museum of Natural History and is founding director of the Personal Genetics Education Project, which works through schools, online curricula, teacher training, and producers and writers of the television and movie industry through involvement with the trade-supporting organization Hollywood, Health & Society.

Sessions

- Sensing Epigenetic Modifications
- Writing Epigenetic Modifications
- Nuclear Organization
- Epigenetic Diagnostics and Therapeutics
- Single Cell Epigenetics
- The Epitranscriptome
- Computation and Modelling in Epigenetics

Conference Chairs

- **Lacramioara Bintu**
Stanford University
- **Albert Keung**
North Carolina State University
- **Winston Timp**
Johns Hopkins University

Organizing Committee

- **Nathanial Hathaway**
University of North Carolina
- **Elizabeth Heller**
University of Pennsylvania
- **Michael Hoffman**
University of Toronto
- **Ahmad Khalil**
Boston University
- **Kate Meyer**
Duke University

Invited Speakers

Lydia Contreras
University of Texas at Austin

Michael Elowitz
California Institute of Technology

Ahmad (Mo) Khalil
Boston University

Hiroshi Kimura
Tokyo Institute of Technology

Anshul Kundaje
Stanford University

Stanley Qi
Stanford University

Karen Reddy
Johns Hopkins University

Hadley Sikes
Massachusetts Institute of Technology

- **Jennifer Phillips-Cremins**
University of Pennsylvania
- **Kaushik Ragunathan**
University of Michigan
- **Marianne Rots**
University of Groningen
- **Hadley Sikes**
Massachusetts Institute of Technology

Organized by

Be part of the discussion. Submit your abstracts by July 6, 2018.
