PANEL DISCUSSION:

***PROCESS SAFETY,
BIG DATA AND THE
DIGITAL
TRANSFORMATION***

Digital Transformation has now become an integral part of corporate strategy. This includes almost all business and technology areas and, of course, also Process Safety. In the Panel Discussion, short presentations will provide insights into the degree of implementation of the digital transformation in the area. In the following discussion, all participants are invited to describe their experiences with implementation or to put their questions to the panel of experts.
