

CCPS INDIA REGIONAL MEETING AGENDA (VIRTUAL)

● DATE- MARCH 3, 2022 ● TIME- 03.00 PM TO 05.30 PM [IST]

CCPS INDIA REGIONAL MEETING AGENDA

Date- March 03, Thursday

Time- 03.00 pm to 05.30 pm, India [IST]

Meeting Sponsor

- 3.00 pm ■ **Meeting Introduction**
 - Umesh Dhake- Regional Manager, CCPS, APME
- 3.10 pm ■ **CCPS Global Updates**
 - Shakeel Kadri-Executive Director & CEO, CCPS
- 3.25 pm ■ **Overview of the recent Process Safety Incidents in India**
 - Rahul Raman; Kaypear Engineering LLP
- 3.35 pm ■ **Roundtable Discussion on- “Driving Process Safety Improvement programs in an organization”**
 - Shri Arun Mittal - Executive Director, Oil Industry Safety Directorate (OISD)
 - Shri Yatendra Lodha- Group Head- Safety & Operational Risk; Reliance Industries Ltd. (RIL)
 - Shri Manoj Srivastava- President; ONGC Petro additions Ltd (OPaL)
 - Shri Rajiv Agarwal, Executive Director (Technical); Engineers India Ltd (EIL)

Session Moderator- Shri. Shakeel Kadri, CEO & ED, CCPS
- 4.25 pm ■ **Technical Forum & discussion on “Process Safety-Development of Incident Predictive Model by using Near Miss Data”**
 - Shri Anshul Kumar Tiwari – HPCL-Mittal Energy Ltd (HMEL)
 - Shri Kumar Varun - Tata Steel Ltd
 - Shri Sujay Patel- Reliance Industries Ltd

Session Moderator- Louisa Nara, Global Technical Director, CCPS
- 5.05 pm ■ **CCPS Process Safety Incident Database (PSID) Overview of version 2**
 - Jennifer Mize, Eastman (Video recording)
- 5.20 pm ■ **Meeting Close out**
 - Umesh Dhake- Regional Manager, CCPS, APME

ROUNDTABLE DISCUSSION

KEY DELIVERABLES:

***“DRIVING PROCESS SAFETY
IMPROVEMENT PROGRAMS IN
AN ORGANIZATION”***

Leaders on the panel will share their views on how to incorporate high potential learnings from recent Incidents, which drives continuous process safety improvement programs in the organization. Industry Leaders will share their experience and practices on-

- Seeking and obtaining key findings from external/internal incidents,
- Translating these findings into lessons learned and
- Converting these lessons into institutional knowledge

The discussion will help companies to overcome challenges to learn from incidents.

TECHNICAL FORUM

KEY DELIVERABLES:

*“PROCESS SAFETY-
DEVELOPMENT OF INCIDENT
PREDICTIVE MODEL BY USING
NEAR MISS DATA”*

- Process safety Near-miss data is very crucial in the operating plant and if reported correctly, it can give a real insight into the performance of organization's key work processes, discipline of operational professionals & contractors, and finally, strength of layers of protection installed to prevent the incident. Such near-miss data provides an early indication of problems/issues that can be resolved before a major process safety incident occurs.

Such predictive models are useful for companies to predict and address the area of concern
