1st Pakistan Regional CCPS Meeting

Venue: Pearl Continental Hotel, Karachi

Date: 22nd November, 2018, (Thursday)

AMERICAN INSTITUTE OF CHEMICAL ENGINEERS (AIChE)

AIChE is a professional society of 50,000 chemical engineers in 100 countries. Its members work in corporations, universities and government using their knowledge of chemical processes to develop safe and useful products for the benefit of society. Through its varied programs, AIChE continues to be a focal point for information exchange on the frontiers of chemical engineering research in such areas as energy, sustainability, biological and environmental engineering, nanotechnology and chemical plant safety and security. More information about AIChE is available at www.aiche.org.

CENTER FOR CHEMICAL PROCESS SAFETY (CCPS)

CCPS is a not-for-profit corporate membership organization within AIChE that identifies and addresses process safety needs in the chemical, pharmaceutical and petroleum industries. CCPS brings together manufacturers, government agencies, consultants, academics and insurers to lead the way in improving process safety. Members, working in project subcommittees, define and develop useful, time-tested guidelines that have practical applications that run the gamut from human factors to qualitative and quantitative risk analysis to security vulnerability to inherently safety design. With more than 100 publications, CCPS is at the forefront of efforts to improve process safety performance. More information about CCPS is available at www.aiche.org/ccps
