Volunteer Opportunities

- Benefits to you
 - Deploy your knowledge and expertise to the benefit of the profession, the industry & the society
 - Be part of the team that defines the guidelines and best practices for the whole industry, world wide.
- The Fine Print
 - Volunteers should be employees of CCPS member companies
 - From any company, one person (and one alternate) per project allowed
 - Participation in more than one project is accepted
 - Background and expertise on the project topic is essential
 - Contribution to the subject matter is critical
 - During the contractor selection steps, non-manufacturing companies may not participate
