

Fall Meeting October 27-29, 2025 Sponsorship Opportunities

The Design Institute for Emergency Relief Systems (DIERS) was founded and continues to work to develop the methodologies required to size emergency pressure relief devices and systems to safely handle runaway chemical reactions and two-phase vapor-liquid flows. The 2025 Fall Meeting will be held in person Oct. 27-29, 2025 (Monday - Wednesday) at the Hilton Post Oak by the Galleria. It will cover topics like runaway reactions and data acquisition, venting of flammable/toxic vapors, two-phase flow, and ERS design.

Sponsorship

The 2025 Fall meeting offers your company an opportunity to ***share your message, showcase your technical expertise*** and ***generate leads*** with the DIERS meeting audience. We recommend focusing your talk on a common problem industry faces related to relief systems, how to solve the problem and how you can help to solve the problem. Leading with a technical focus generates the most interest from meeting attendees.
