

	Subset			Price ¹ [€]	Leasing ² [€]
1. Dortmund Database (DDB)					
a) Phase Equilibria					
Vapor-Liquid Equilibria (normal boiling substances)	VLE	29 480	data sets	31.440,-	7.860,-
Vapor-Liquid Equilibria (low boiling substances)	HPV	28 385	data sets	23.200,-	5.800,-
Vapor-Liquid-Equilibria (electrolyte systems)	ELE	7 500	data sets	10.600,-	2.650,-
Liquid-Liquid Equilibria	LLE	19 570	data sets	19.800,-	4.950,-
Activity Coefficients at infinite dilutions (pure solvents)	ACT	53 840	data points	11.600,-	2.900,-
Activity Coefficients at infinite dilutions (in mixtures)	ACM	1 410	data sets	3.000,-	750,-
Gas Solubilities (non-electrolytes)	GLE	18 570	data sets	14.960,-	3.740,-
Gas Solubilities (electrolyte systems)	EGLE	1 450	data sets	4.920,-	1.230,-
Critical data of mixtures (critical lines)	CRI	1 860	data sets	3.200,-	800,-
Solid-Liquid-Equilibria (mainly organic compounds)	SLE	28 540	data sets	19.200,-	4.800,-
Salt solubilities (mainly in water)	ELSE	26 900	data sets	21.200,-	5.300,-
Azeotropic data	AZD	50 200	data points	13.560,-	3.390,-
Partition Coefficients (octanol-water)	KOW	7 740	data points	2.720,-	680,-
Polymer mixtures	POLY	16 920	data sets	15.200,-	3.800,-
b) Excess Properties					
Excess Enthalpies	HE	19 260	data sets	16.800,-	4.200,-
Heat Capacities of Mixtures (Excess heat capacities)	CPE	3 025	data sets	3.680,-	920,-
Mixture Densities (including Excess volumes)	VE	36 615	data sets	9.480,-	2.370,-
c) Pure Component Data					
Pure component properties (individual subsets on request)	PURE	178 675	data sets	52.000,-	13.000,-
2. Electrolyte Data Collection Regensburg					
Electrolyte, solvent & solvent mixture data	ELDAR	45 733	data tables	8.950,-	2.240,-
3. FIZ CHEMIE Data Collections					
Infoterm Database	INFOTHERM	138 300	data tables	16.365,-	4.090,-
Parameter Database COMDOR	COMDOR	20 131	data sets	4.600,-	1.150,-
Basic Database Böhlen	BDBB	78 511	data points	7.160,-	1.790,-
C-Data Prague (20 properties for 593 compounds)	CDATA	7 043	data sets	2.050,-	510,-
4. DECHEMA Data Collections					
Eutectic Data	D-EUT	6 266	data sets	1.300,-	325,-
Solubilities	D-SOL	48 373	data sets	1.250,-	310,-
Diffusion coefficients	D-DIFF	8 921	data sets	1.300,-	325,-
Thermal conductivities	D-CON	4 177	data sets	210,-	50,-
Viscosities	D-VIS	7 244	data sets	250,-	60,-
Vapor Pressures (Chebyshev-/Antoine coefficients)	D-VAP	13 068	data sets	1.300,-	325,-
Transport properties	D-TRANS	57 751	data sets	1.250,-	310,-
Caloric data	D-CAL	61 271	data sets	1.300,-	325,-
PVT data	D-PVT	50	compounds	1.150,-	290,-
Critical data	D-CRIT	1 100	compounds	1.550,-	390,-
5. CAPEC/DTU Data Collections					
Solubilities of Large Complex Chemicals	CAPEC-SDB	5 580	data points	1.170,-	290,-

¹ Basic purchase price for a **single user** installation. Yearly updates are available for 12.5 % (see license conditions).

² Annual leasing fee for one year of usage for a **single user** - not available for universities.

For a **client-server version** with 1 database server and an **unlimited no. of clients**, add 100 % to the base price or the yearly leasing fee.

**DECHEMA**Gesellschaft für Chemische Technik
und Biotechnologie e.V.**DETherm Software - Pricelist January 2010****(ALL PRICES WITHOUT VAT)**

	Single User		Client-Server (unlimited no. of clients)	
DETherm Software Suite (Standard Version)	Annual leasing fee ^{3,7} [€]		Annual leasing fee ^{3,7} [€]	
- DETherm data retrieval and management software for SQL database servers⁴ (ORACLE™) - Regression module with advanced regression capabilities & interfaces to various Process Simulation Packages	4 250,-		10 000,-	
Software Purchase Options (alternatively to leasing)	Price ^{5,7} [€]	License ^{6,7} [€]	Price ^{5,7} [€]	License ^{6,7} [€]
DETherm Software Suite ⁴ (DETherm Standard & DPP)	17 000,-	4 970,-	40 000,-	11 700,-
DETherm ORS ⁴ (Standard Version)	4 000,-	1 170,-	14 000,-	4 100,-
DECHEMA Data Preparation Package DPP	15 000,-	4 400,-	30 000,-	8 780,-

³ Annual leasing fee for one year of usage including updates and support within that year.⁴ The license fees for the database management software (ORACLE™, PostgreSQL) are not included in this price. ORACLE™ and/or PostgreSQL will neither be delivered nor installed by DECHEMA e.V..⁵ Basic price with one year of support. Yearly updates are available for 16 % (see license conditions).⁶ Annual license based on a 7-year contract, including support and updates⁷ DETherm ORS / Software Suite is only available in combination with the DETherm data collections. With stripped database add 100 % of the software price.**DETherm License & Update Conditions**

For a continued leasing of data and software, in each year the prices of that year are applicable for the renewal.

In case of a purchase, yearly updates of the data and the software packages are available. The update fee is calculated as percentage of the basic price and depends on the duration of the contract. For the software packages annual leasing is recommended (see above).

Duration of contract [years]	Data update fee [% of basic price]	Software update fee [% of basic price]
3	25.0	20.0
5	15.0	18.0
7	12.5	16.0

The basic fees & the update fees may be spread over the duration of the contract. For spreading an annual rate of 1.5 % is charged for every year except the first. The given prices do not contain the applicable taxes within the European Union. Prices are subject to change without notice. All software is delivered as object code.

Universities receive a discount of 50 %. For teaching purposes a classroom version with the data of 30 components (and its mixtures) is available for € 990,- including the Retrieval Software or € 2 800,- including the Retrieval & Regression Software. Please ask for further details.

Evaluation of Data & Software

For evaluation purposes a DEMO-CD containing the DETherm Data Directory is available for free. Within the Demo the visibility of each DETherm subset could be selected separately. By this means the contents of individual compilations consisting of different DETherm subsets could be viewed.

Further demonstration material is available on request.
