DOING  
A WORLD  
OF GOOD

## The Future Takes Shape

Thanks to the generous support of our industry partners and individuals, we have continued to make great progress toward our goals, but there is important work that remains ahead. We're thrilled to announce the launch of our latest campaign initiative, **All For Good: Engineering for Inclusion**, a comprehensive, industrywide effort to address gender and racial disparities, and attract and retain the best talent to the profession.

We hope you'll join us in support of this vital work.
