

VIRTUAL

AfroBioTech

Black Lives Matter in Science, Engineering & Medicine
#BLMinSTEM

October 26-28, 2020

Participate in the Virtual AfroBioTech Conference – an event that will highlight the achievements of African Americans in biotechnology, inspire a new generation of diverse biotechnology professionals and identify, communicate, and explore current advancements in various aspects of biotechnology. The conference aims to support AIChE's diverse engineering community and all are welcome to join.

SESSION TOPICS

- Regenerative Engineering
- Health and Medical Applications
- Metabolic Engineering and Synthetic Biology
- DNA Synthesis, Genome Design, and Editing
- Microbiome and Immunoengineering
- Mathematical and Computational Modeling
- Bioengineering and Our Community
- Biological Chemistry and Nanotechnology

Submit an abstract, register and learn more about AfroBioTech
