

FOOD-ENERGY-WATER NEXUS

DECEMBER 10-11, 2020
UNIVERSITY OF CALIFORNIA, BERKELEY

How do we provide and maintain the food, energy and water supplies in urban environments as the population continues to increase?

Please join us as we bring together leaders and experts from cutting edge fields to address challenges to manage food, energy and water provisions for an ever-growing population. Obstacles and initiatives are the focus of this conference, and attendees will leave with new ideas and collaborators.

Submit an abstract, register and learn more about Food-Energy-Water Nexus at:
