# SOLAR ENERGY SYSTEMS CONFERENCE

**AUGUST 4-6, 2021**

The American Institute of Chemical Engineers invites representatives from academia, industry, and policy making and government organizations to participate in the 3rd Solar Energy Systems Conference. The conference will provide a forum for the exposure and exchange of ideas, methods and results in solar energy science, engineering and engagement.

## SESSIONS AND TOPICS

- Solar thermal power
- Solar fuels
- Solar energy for industrial processing
- Solar desalination, CO<sub>2</sub> capture and recycling
- Solar energy systems modelling
- Optics for solar energy
- Thermal energy storage
- Materials for solar energy
- End-of-life solar device recycling
- Industry engagement

Submit an abstract, register and learn more  
about Solar Energy Systems Conference at
