

**Topical Conference: Sensors**

# 2019 Sensors Student Graduate Competition

**The student competition session is a new session of the 2019 Sensors Topical conference exclusively for students to present their original research in the broad areas of biosensing technologies and emerging applications.**

The competition is open to all students participating Sensors (including material science, nanotechnology, fabrication, and applications). Abstracts should be submitted to the Sensors Student Competition session. Eight abstracts will be selected; if your abstract is not selected it will be transferred for consideration in another appropriate session.

Session Chairs: Dr. Qingshan Wei (NC State), Dr. Stephanie McCalla (Montana State), Dr. Ariel Furst (UC Berkeley)

Cash prize sponsored by Gamry Instruments Inc.
