

Industrial Water Use and Reuse Workshop 2018 Sponsorship Prospectus

San Antonio, Texas • November 15-16, 2018

<http://www.aiche.org/ifs/conferences/industrial-water-use-and-reuse-workshop/2018>

AICHE's International Society for Water Solutions (ISWS) is hosting a workshop to bring together mining and water treatment industry leaders to discuss the latest advances in water efficiency solutions for today and future research. Water is one of the most important resources in the mining industry to support sustainable operations. With increasing pressure on water availability, reducing quality levels for processing, and the need to ensure compliance with increasing environmental regulations, maximizing efficient water use is a critical contributor to the bottom line for mining industry growth. This workshop will bring together engineers across the mining and water treatment industries along with academia to exchange solutions for treatment options and share future research directions.
